SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

OCTOBER 1942

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which official inspection work is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year (foreign, 60 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICES REGARDING MEAT INSPECTION

DEFINITION OF BABY BEEF REVOKED

The definition of baby beef published on page 84 of Service and Regulatory Announcements for November 1926 is hereby revoked, and the permission for the use of the term "baby beef" in connection with labeling or marking devices at inspected establishments is withdrawn.

Inspectors in charge shall remove from the files approvals heretofore given by this Bureau for marking and labeling devices on which the term "baby beef" is displayed, and forward to the Washington office a list of the rescinded material in triplicate for each establishment.

IMPORTATION INTO CANADA OF MEATS FROM COUNTRIES IN WHICH RINDERPEST OR FOOT-AND-MOUTH DISEASE EXISTS

Information has been received from the Veterinary Director General, Department of Agriculture, Ottawa, Canada, that the previous order restricting the importation of meats into Canada from countries in which rinderpest or foot-and-mouth disease exists has been canceled, and the following substituted therefor:

The importation or introduction into Canada either direct, or via other countries, of meat and meat byproducts, other than cooked canned meats, cooked canned-meat byproducts, edible tallow, and oleo stearine from countries in which foot-and-mouth disease, or rinderpest, has been known to exist during the preceding 12 months is prohibited; except that the importation of feathered game is permitted, provided the feet of the birds have been removed at a point above the spur or spur core.

This notice supersedes the notice in Service and Regulatory Announcements for August 1931 captioned "Meat and Meat Byproducts for Canada" and the notice in Service and Regulatory Announcements for July 1937 entitled "Importation into Canada of Meats from Countries in which Rinderpest or Foot-and-Mouth Disease Exists."
